By signing his/her name they are declaring the ROE to be a true reflection.	Supervisor name Supervisor GDC number Supervisor Signature Supervisor comments
1 13/10/14	1	GOOD BUCCAL MARGINS OF SOFT TISSUE MUSCLE DEFINITION ON BUCCAL SULCUS SOFT + HARD PALATE USABLE. THIS PT HAD A STRONG GAG REFLEX ENDURELESS - IMP FOR F/ BRIDGE BRIDGE I REASSURED THE PT AND ADVISED BREATHING THROUGH THEIR NOSE AT ALL TIMES. UPPER IMPRESSION FOR FULL DENTURE	Very good impression on difficult patient. Handled her gag reflex well.
2 20/10/14	1	A SPECIAL TRAY IMPRESSION INCLUDING HARD + SOFT PALATE. MUSCLE DEFINITION INC FRIUM. USED GREEN STICK DAX TO BUILD UP TRAY FOR GOOD SHAPE OF SULCUS. PT HAD V. STRONG GAG REFLEX. IMP FOR F/ GREEN WAX SLIGHTLY USABLE UL ANT Q NOT A VOID. DUE TO GREEN WAX BUILD UP. UPPER SPECIAL TRAY IMPRESSION F/	well defined impression

3 20/10/ 14	2	LOWER IMPRESSION FOR /P GOOD BUCCAL SULCUS + MUSCLE DEFINITION. STANDARD TRAY FOR ~ /P DENTURE HAD TO USE LARGER LOWER AND BUILD UP TRAY WITH RED WAX HENCE SLIGHT VISUAL OF TRAY LINGUALLY FEW TEETH AND LONG TEETH. FOOD TRAPPED 71 NOT AIR BLOW. GOOD LINGUAL MARGINS. VERY STRONG GAG REFLEX. PT WANTED TO TAKE OUT TRAY. CALMED HIM DOWN BY EMPHASISING THE BREATHE THROUGH HIS NOSE.	 good impression in difficult mouth. enough definition to allow lab to use this to make special tray.
4 10/10/ 14	1	GOOD BUCCAL + LINGUAL MARGINS CLEAR DEFINITION OF ALL TEETH. FOR BLEACHING TRAY. OCCUSAL ANATOMY + INCISAL EDGES CAPTURED RECORD OF ALL TEETH. SLIGHT THINNING OF MATERIAL LINGUALLY BUT WILL NOT AFFECT IMP FOR BLEACHING TRAYS. LOWER IMPRESSION FOR BLEACHING TRAY.	 good impression bleaching tray fitted well
5 13/10/ 14	1	LOWER IMPRESSION FOR STUDY MODEL. OPPOSING FOR UPPER DENTURE. SOME THINNING OF THE IMPRESSION MATERIAL LINGUALLY CAUSED BY THE TONGUE BEING LIFTED AND MOVED TO GET GOOD LINGUAL MARGIN. GOOD MUSCLE DEFINITION AROUND THE BUCCAL SULCUS. PT HAS VERY BROKEN / CHIPPED. ANT TEETH, IRREGULAR SHAPED.	 good impression on difficult patient (gag reflex) all details needed recorded well

6 15/9/ 14	1	LOWER IMPRESSION FOR BLEACHING TRAY CLISP. CLEAN BUCCAL MARGINS RECORD OF ALL TEETH NEEDED FOR BLEACHING TRAY & NOT NEEDED. GOOD OCCLUSAL ANATOMY AND INCISAL EDGES. TRAY VISIBLE LINGUALLY NOT NEEDED FOR BLEACHING TRAY.	 good definition of gingival margins and occlusal surface bleaching tray fitted well.
7 19/9/ 14	1	LOWER SPECIAL TRAY IMPRESSION /P. GOOD LINGUAL + BUCCAL SULCUS. R R TO VISIBLE PT. DID HAVE CHIPS IN TEETH AND CARIOUS. TRAY VISIBLE EXTERIALLY LINGUALLY DUE TO ASKING PT TO POK OUT TONGUE + WIGGLE TO GET GOOD LINGUAL SULCUS DEFINITION.	 good impression for denture. lingual sulcus very clear + tongue space.
8 16/9/ 14	1	LOWER IMPRESSION FOR BLEACHING TRAY. THIS PT HAD A NARROW ARCH ANTERIALLY BUT WIDENING POSTERIALLY. FOUND IT DIFFICULT TO GET A TRAY. SMALLER TRAY FIT BACK TEETH. LARGE TRAY COULD NOT FIT INTO MOUTH. IMPRESSION AN ACCEPTABLE GRADE 1 FOR PURPOSE. GOOD OCCLUSAL ANATOMY + BUCCAL EDGES CAPTURED. TRAY VISIBLE BUCCALLY + LINGUALLY DUE TO STOCK TRAY + V. SMALL MOUTH OPENING. MUSCLE DEFINITION STILL ACHIEVED.	 good impression of difficult mouth. they lay understand limitations of stock trays.

9 12/9/ 14	1	STUDY MODEL IMPRESSION WITH DENTURE IN SITU. UPPER THIS WAS A DIFFICULT IMPRESSION TO TAKE AS PT HAD 1 NATURAL TOOTH [7] I PLACED ADDITIONAL ALGINATE AROUND THE [7] WHEN TAKING THE IMP TO INSURE I GOT FULL DEFINITION. THE SPACE AROUND [7] IS THE JOIN BETWEEN DENTURE + NATURAL TOOTH. GOOD OCCUSION AND INGISAL EDGES CAPTURED. BUCCAL SULCUS DEFINED + DEFINITION BETWEEN PLATE + HARD PARTS.	 Hard to take imp over denture without it moving. did very well.
10 15/9/ 14	2	UPPER IMP FOR BLEACHING TRAY. GOOD BUCCAL SULCUS DEFINITION. OCCUSAL ANATOMY AND INGISAL EDGES DEFINED. THE AIR BLOW ON THE BUCCAL SULCUS WOULD NOT DEFINE THIS AS A GRADE 2. HOWEVER THERE IS AN AIR BLOWABLE DISTALLY, THEREFORE A GOOD SEAL FOR BLEACHING TRAY COULD NOT BE ACHIEVED AND HENCE A GRADE 2. ADDITIONAL ALGINATE + RED WAX TO EXTEND THE TRAY WOULD HAVE HELPED.	 (see 11)
11 15/9/ 14	2	UPPER IMP FOR BLEACHING TRAY. THIS HAS GOOD BUCCAL SULCUS DEFINITION AND AS YOU WILL NOTICE IT IS THE 2ND IMP OF THE ABOVE PATIENT. THE OCCUSAL ANATOMY + INGISAL EDGES ARE DEFINED AND I HAVE COLLECTED THE AIR BLOW ON THE [7] DISTALLY. HOWEVER THERE IS A VERY SLIGHT PULL BY D. AN. SO HAVE GRADED THIS A 2 AS WELL. THE AIR BLOW ON THE BUCCAL SULCUS IS NOT RELEVANT TO THIS APPRAISAL. WE DID USE THIS IMP FOR THE BLEACHING TRAY IT FITTED VERY WELL + PT VERY HAPPY.	 Hayley understood the problems with the first impression and took time to correct them to make improvements She understands what extra things would have improved further.

12 12/9/ 14	2	LOWER IMP FOR /P DENTURE. A FIRST IMP FOR /P DENTURE. GOOD BUCCAL SULCUS ^{POSTERIORLY} BUT AN AIR BLOW AT THE 134 REGION. THEREFORE A GRADE 2. A SPECIAL TRAY WAS MADE FROM THIS IMPRESSION IN WHICH I WAS THEN ABLE TO GRADE THAT AS A 1. PULLING AT THE LOWER LIP AND MASSAGING BETTER WOULD HAVE AVOIDED THIS.	 Good enough imp for what was needed. Understands how to improve on small errors.
13 10/9/ 14	2	LOWER IMP FOR BLEACHING TRAY. GOOD BUCCAL, LABIAL + LINGUAL SULCUS DESPITE AN AIR BLOW THIS WOULD NOT AFFECT THE GRADING FOR THIS TYPE OF APPLIANCE I HAVE GRADED IT A 2 BECAUSE BOTH 717 DISTALLY DO NOT HAVE GOOD DEFINITION AND 2 VERY SMALL AIRBLOWS MARGINALLY AT THE 315. ADDING MORE ALGIMATE MANUALLY TO THE 717 DISTALLY + BETTER MIXING WOULD HAVE AVOIDED THIS.	 Good understanding of errors and how to rectify them.
14 10/9/ 14	2	UPPER IMP FOR BLEACHING TRAY. I HAVE GRADED THIS IMP A 2 BECAUSE OF SOME SMALL AIRBLOWS PALATALLY AT THE MARGINS AND DISTALLY IT. THERE ARE SOME AIRBLOWS BUCCAL SULCUS AND ONE PALATIAL BUT THIS WOULD NOT AFFECT THE GRADING OF THIS IMP FOR WHAT IT IS NEEDED FOR. BETTER MIXING OF THE ALGIMATE WOULD HAVE PREVENTED THIS.	 Good enough imp for what was needed

15 28/10/ 14	1	UPPER IMPRESSION FOR STUDY ⁸ MODEL. THIS IMPRESSION HAS GOOD BUCCAL SULCUS DEFINITION. AND DEFINED GINGIVAL MARGINS. IT IS FOR A PATIENT OF MIXED DENTITION ^{AND LOST ALL TEETH. PRESENT} IT DOES HAVE AN AIR BLOW ON ANTERIOR BUCCAL SULCUS BUT THIS WILL NOT AFFECT THE ABILITY TO CAST FOR A MODEL. SHOULD THIS HAVE BEEN FOR A WORKING APPLIANCE I WOULD HAVE RETAKEN THE IMP. I DID NOT WISH TO DISTRESS THE YOUNG PT UNNECESSARILY.	Good imp on child who had never experienced this before
16 24/10/ 14	1	^{SPECIAL TEAM} UPPER IMPRESSION FOR ENDENTURESS PATIENT THE IMPRESSION HAS A GOOD DEFINED SULCUS. IT HAS RECORDED ALL IRREGULARITIES OF THE UPPER ARCH. THE IMPRESSION DESPITE BEING CENTRAL TO MIDLINE DOES SHOW MORE LHS DUE TO MORE ALGIMATE BEING LOADED THIS SIDE. IT IS AN IT IS AN ACCEPTABLE IMPRESSION FOR A DENTURE.	Good imp ⁸ .
17 28/10/ 14	1	LOWER ALGIMATE FOR STUDY MODEL. THIS IMPRESSION IS FOR A PATIENT OF MIXED DENTITION. IT RECORDS ALL TEETH PRESENT (AND THOSE MISSING). IT HAS GOOD LINGUAL SULCUS. THE MARGINS ARE DEFINED, HOWEVER THERE ARE 2 SMALL AIRBLOWS BUCCALLY IN THE SULCUS. IF THIS WERE FOR A GUM SHIELD I WOULD RETAKE THE IMPRESSION BUT FOR STUDY MODEL. I DID NOT WISH TO DISTRESS THE YOUNG PATIENT UNNECESSARILY.	Good imp shows everything needed

18 28/10/ 14	1	LOWER ALGinate FOR BLEEDING TRAY. THE BUCCAL SULCUS SHOWS SLIGHT IRREGULARITY ANTERIORLY BUT THIS DOES NOT AFFECT THE IMP FOR BLEEDING TRAY. IT HAS GOOD GINGIVAL DEFINITION. SHOWS ALL DENTITION WITH NO MARGINAL AIRBLOWS.	 Good definition alar margins
19 28/10/ 14	1	UPPER IMPRESSION FOR BLEEDING TRAY. THERE ARE AREAS OF THIS IMPRESSION THAT ARE A GRADE 2. - TRAY SHOWING RHS ANTERIOR AND IF THIS WAS NEEDED FOR ANY OTHER TREATMENT I WOULD HAVE RETAKEN THE IMPRESSION. IT IS A GP 1 FOR A BLEEDING TRAY BECAUSE IT HAS GOOD OCCLUSAL ANATOMY AND INCISAL EDGES ARE CAPTURED. THERE ARE NO DEFICIENCIES OR TEARS OR MISSING OF MATERIAL. GOOD BUCCAL MARGINS. APOLOGIES FOR POOR PICTURE QUALITY ON THIS ONE.	 Good imp. for what was needed
20 28/10/ 14	2	UPPER IMP FOR BLEEDING TRAY. I GRADED THIS A 2 BECAUSE OF SMALL AIRBLOWS ON GINGIVAL MARGINS. THE TRAY IS SHOWING (ALTHOUGH NOT AN ISSUE FOR A BLEEDING TRAY). IT DOES HAVE GOOD OCCLUSAL ANATOMY AND RECORDS ALL TEETH FOR USE IN A BLEEDING TRAY. NOT THE 8'S, I DID RETAKE THIS IMPRESSION FOR ME BLEEDING TRAY.	 understands errors.
